

**Minutes – CNHARC Steering
Committee – Jan. 8, 2006**

The Jan. 2006 Steering Committee was held on the air, 01/08/06 with the following members checking in:

Mark – W1DDI, Tom – K1LQN, Ken – KB1COM, Lee – KB1GNI, Doug - K2ITX, Dick – N1LT, Ed – N1EO, Jack – WA1ZDV, & Cliff – N1RCQ.

Dave had a family emergency and was unable to check in. Cliff called the meeting to order at 7:08PM on the 147.390 repeater.

Jack announced that the membership meeting to be held on Feb. 7 would include a program on cables and connectors. Jack is also trying to get a group together that would make a presentation of their choice so as to involve more members in the program activity.

Conal was unable to access the 39 repeater or the Red Hill link. Doug volunteered to take these minutes.

Tom gave the treasurers report which was accepted. Available funds are low due to the large number of members who did not renew for 2005-2006.

Dick announced plans for license classes to be held in Laconia *if* there are at least 6 people who sign up.

Cliff announced that there will be sled dog races on 2/10, 11 and 12 in Laconia, on 2/18 in Sandwich and on 2/25 & 26 in Meredith, weather permitting. Many members with portable 2 meter rigs will be needed. Mike would like many pictures for the Communicator and Doug needs pictures for the newspapers.

Mark reported that he will try other duplexers on the Red Hill repeater when access to the site is usable. Meanwhile, the Red Hill repeater is running on receive only due to the continuing interference problem.

Bob reported the Thurs. night 6 meter net alive and well with an average of 10 check-ins per week.

Jack suggested that someone write an article for the communicator about our youngest member – Katie, KB1LXE and her participation in club monitoring operations.

The next Steering Committee meeting will be on Feb.13 at Dick and Mary Ellen's home.

The meeting was adjourned at 8:15 PM.

Respectfully submitted, Doug – K2ITX,
secretary pro tem.
